Charges That Coal Trust Dominates Railway Cause Flurry at Committee Hearing.

Hot words flew thick and fast today

when a Senate committee resumed in-vestigation of charges by B. L. Dulaney, an independent coal operator, "coal trust," through domina tion of the Southern railway, discriminates against south Atlantic ports.

When Frank C. Wright, another independent operator, offered testimony that the Southern's coal rates were 50 per cent higher than the average, and that the railroad had bought other than the railroad had been than the railroad had bought other than the railroad had bought of the railroad had bought of the railroad had been than the railroad had been than the railroad had been than the railroad tion of the Southern railway, discrimthat the railroad had bought other roads in the south to perfect a mo-nopoly, Alfred P. Thom, general coun-sel for the Southern, objected that the committee was going outside the scope of its authority, and that Dulaney was seeking to break down the credit of

the Southern Railway Company. C. A. Douglas and Frank Lyon, sel for Dulaney, sprang to his defe Says Southern Controls.

"The Southern railway controls every gateway across the mountains into the Appalachian coal fields," declared Mr

Mr. Douglas characterized the attack upon Dulaney as one "because he dared upon Dulaney as one "because he dared to knock at the door of the Senate and ask for relief after flinging a charge against the Southern rallway."

The effect of the testimony, he said, was to show there was a discrimination in favor of Norfolk and ports north against ports south which prevented southern operators from bidding on coal for the navy.

RAYBURN STOCK-BOND RAILROAD BILL ALIVE

Divide and Increase I. C. C. Membership.

While there appears little probability that the Rayburn bill providing for the supervision of all stock and bond issues of railroads by the interstate commerce commission will be taken up in the Senate at the present session Senator Newlands, chairman of the interstate commerce committee, is far from believing that the bill is a dead issue.
The statement of the President in his

address to Congress last Tuesday to the effect that no further legislation affecting business was to be expected seemed to make certain the death of lands, after a visit to the White House, declared that it was not the intention to throw the stock and bond bill over-

"The interstate commerce commission is overburdened with work at present," said Senator Newlands, "and it is perhaps not an opportune time to enact into law a bill which will place more work upon the sohoulders of the commission. But that does not mean that the stock and bond issue bill will not be taken up in the future."

COTTON MARKETS.

NEW YORK.

NEW YORK, December 10.—Cotton was steadier early today, and after opening at an advance of 2 to 3 points, sold about 2 to 7 points net higher on covering, the steadier rulling of New Orleans and the relatively steady cable. The better tone of the New Orleans market probably inspired some covering by local sellers of late yesterday, as yesterday's late reaction appeared largely due to a break in the southern market, and the showing of Liverpool also suggested that there had been no particular pressure of spot offerings over night.

Futures opened steady, as follows: December, 7.02; January, 7.16; March. 7.35; May, 7.53; July, 7.68; August, 7.85; October, 7.94.

The average of eighty-five estimates by cotton exchange members indicated that the government estimate was expected to show about 15,400,000 bales excluding linters. Trading continued very quiet during the middle of the day, with active months some 3 to 6 points net higher. NEW YORK.

NEW ORLEANS.

NEW ORLEANS, December 10.—Cotton opened at an advance of about 4 points on good cables today. Shorts who wanted to cover over the bureau report started bidding and offerings were absorbed. Half an hour after the opening prices were 7 points over yesterday's close.

prices were a points close.

Futures opened steady, as follows:

asked; July, 7.61 asked; October, 7.83.

A private bureau crop estimate of 15,695,000 bales worked against prices somewhat and at noon the market stood 2 points up.
